

Anchorage International Airport Master Plan Update
Technical Advisory Committee
Meeting #4

Date: Thursday, May 9, 2013
Time: 1:30PM – 3:30PM
Location: Anchorage International Airport Badge Office, North Terminal Room NA165

ALTERNATIVES EXERCISE HANDOUT

Purpose: The purpose of this exercise is to stimulate discussion among Technical Advisory Committee members about what you see as considerations under each alternative. A consideration is *an outcome of the alternative—it's broader implication for the community.*

Directions: We will go through the alternatives and each one will be shown on the projector screen. We will spend about 10 minutes per alternative brainstorming individually and discussing as a group.

1. **Individual Work** (3 min): Work on your own to generate a list of considerations (see definition above), using the attached sheets.

2. **Group Discussion** (7 min): Each participant will be asked to share a consideration they identified. Other Technical Advisory Committee members will be asked by a show of hands to indicate if they had a similar consideration, and we will discuss as a group. We will document and tally input on a flip chart.

Alternative 1: Minimize Development

(take notes here)

Alternative 2: Optimize Use of AIAS System Infrastructure (FAI)

(take notes here)

Alternative 3: Optimized Use of Existing ANC Infrastructure

(take notes here)

Alternative 4: New Closely Spaced Runway

(take notes here)

Alternative 5: New Widely Spaced Runway

(take notes here)
